PROFESSIONAL SUMMARY

Software developer and cybersecurity-oriented IT professional with experience in Linux systems, scripting, troubleshooting, infrastructure deployment, and web development. Background includes freelance software engineering, technical support, and AI-assisted code evaluation across multiple programming languages. Currently seeking opportunities in software development, cybersecurity, SOC operations, technical support, or infrastructure-related roles.

PROFESSIONAL EXPERIENCE

AI Coding Evaluator / Technical Reviewer

Outlier AI | Remote | 2024 - Present

- Evaluated and validated AI-generated code across Python, C, Java, and TypeScript tasks.
- Reviewed debugging workflows, API integrations, and tool usage accuracy.
- Identified logical, implementation, and security-related flaws in generated solutions.
- Analyzed model responses for correctness, performance, and technical reliability.

Freelance Software Developer

Self-employed | Buenos Aires, Argentina | 2024 - Present

- Developed and deployed web applications using React, Next.js, TypeScript, Node.js, and Python.
- Managed Linux VPS environments and configured Nginx-based deployments.
- Built backend services, APIs, and database integrations using SQL and MongoDB.
- Performed debugging, troubleshooting, and performance optimization tasks.
- Worked with self-hosted applications and infrastructure configuration.

Supervisor & IT Technician

Silver Point Service | Buenos Aires, Argentina | 2012 - 2020

- Resolved hardware and software technical issues for customers and workstations.
- Provided technical support, troubleshooting, and system maintenance.
- Installed and configured computer systems, peripherals, and software environments.
- Assisted users with operational and technical problems.
- Supervised daily operations and coordinated a small support team.

CERTIFICATIONS

- **IBM & Meta Professional Certificates** — (Frontend, Backend, Full Stack, React Native)
- **Cisco** — Introduction to Cybersecurity
- **Google** — Cybersecurity Professional Certificate
- **TryHackMe** — (Pre Security, Cybersecurity 101, rooms and labs)

TECHNICAL SKILLS

- **Programming & Scripting:** Python, JavaScript, TypeScript, Bash, SQL
- **Web & Software Development:** React, Next.js, Node.js, supabase, APIs, MongoDB, SQLite
- **Infrastructure & Systems:** Linux, Nginx, VPS Deployment, Docker, Git, GitHub, Networking Fundamentals
- **Cybersecurity:** Vulnerability Assessment, SIEM Concepts, Log Analysis, IDS / IPS Fundamentals, NIST Framework, Security Fundamentals, Wireshark, Nmap, Burp Suite

EDUCATION

- **Bachelor specialized in Technical Science and Society:** Colegio N°6 Juan Pablo Duarte
- **Independent Training in Software Development & Cybersecurity:** Focused on Linux systems, networking fundamentals, web development, scripting, infrastructure deployment, security concepts, and hands-on technical projects through self-directed learning, professional certifications, and lab environments.
- **Language:** Spanish - Native speaker, English - B2 upper intermediate
